Za Pizza Bistro = Custom + Fast + Fired

Za Pizza Bistro is a fast casual pizza restaurant specializing in “create your own” artisan pizzas for one price. The ambience is trendy with a New York industrial loft vibe – features include an open concept kitchen, industrial-style wallpaping, concrete floors, and crisp white stone tabletops. Kitchen equipment and the backline are finished in stainless steel that enhances the industrial feel of this fast-casual franchise concept.

Customer Centric Experience

When customers enter, they are greeted by easy-to-read menu boards surrounded by chalkboard paint – a space where patrons can add their own personal greeting, hashtags, or favourite pizza topping combinations. High definition televisions add to the bistro feel with trendy up-to-date music videos playing in the background & showcasing local national sports teams when they are playing live.

When placing their order, customers start by selecting their favourite type of crust (original, whole wheat or gluten-free). All of our dough is “made fresh in-house” with a 24-hour fermentation period featuring a thin crust. From here, customers can choose their sauce (7 different kinds), cheese (7 types, including a vegan cheese), and finally their unlimited toppings (over 25 options, from dry cured pepperoni to fresh-cut veggies).

After the customer creates their own artisan pizza, it goes into our special high heat gas fired oven (fires up to 700 degrees) and cooks the pizza in under 5 mins. To add to the “custom” experience, we also feature Coca-Cola Freestyle machine offering customers a choice of over 130 flavours – it’s not hard to find something interesting to drink!

With features of the month, create your own salads, a selection of wine and beer, tempting dessert pizzas, and endless options to create your own perfect pizza at an affordable price, it is not hard to see why Za Pizza Bistro has become so popular so fast!

Za Pizza Bistro is pursuing expansion options for individuals and companies with the intent of developing our brand in locations both across Canada and around the world. Our growth strategy is to expand in shopping centers, stand-alone locations, food courts, and office buildings. Locations can vary from 1300 sq. ft. to 3000 sq. ft.
